NATURAQUA BORMA SHIELD HOLZSCHUTZ

Special primer for wooden houses

DESCRIPTION:

Special primer, developed for the treatment of wooden houses. NATURAQUA BORMA SHIELD prevents efficiently the attack of moulds, mushrooms, insects and similar during the period of building, in which the house is left without a proper finishing.

After a common period of a season, NATURAQUA BORMA SHIELD is exhausted, but the wood has kept protected, with its original colour, and sufficiently saturated to avoid need of basecoat in excess.

With this product, the wood can dry properly and reach its final volume without been wasted by weathering.

Suitable for raw log houses, cleaned log houses, wooden boards, decks, etc. Easy application. Waterborne, it hasn't vapours affecting human health and allows application under pressure.

PHYSICAL – CHEMICAL CHARACTERISTICS:

Appearance:	liquid
Colour:	colourless
Odour:	characteristic
Coverage:	8-12 m ² /Lt depending on the surface absorbency
Dilution:	ready to use

METHOD OF USAGE:

On the recently built house (or other), apply one single coat of NATURAQUA BORMA SHIELD on the fresh wood. All methods for application are suitable, but paintbrush is recommended. The product has an good penetration and protects wood in depth, just ensure to cover all the surface.

Natural resin of conifer timber is causing no problem to the product.

Let the product dry for 6-8hrs, possibly during day, in order to avoid the night humidity.

Usually wooden houses are left without ultimate finishing for the period of 1 year; in this time, NATURAQUA BORMA SHIELD will gradually deteriorate, making the wood ready for further treatment with any kind of finishing (solvent based, white spirit based, waterborne, etc.)

PACKAGE:

Available in tins of 100ml, 250 ml, 1 l, 5 l, 10 l, 25 l.

STORAGE:

Keep the material in a clean, well ventilated place, away from heat resources and direct sunlight, possible between a minimal temperature of 5°C and a maximum of 35°C .

The product should be keep preferably in original containers.

WARNING:

Our technical data sheets are prepared on the basis of average performance of our tests. However, our technical advices are given in good faith but without any warranty. In fact different supports, conditions of application, industrial plants, dilutions are determinant for the final result, and are often beyond our control. The user must try the product to see if it is suitable for his needs. We will ensure the continuity of the chemical-physical characteristics.

WARNING: the product has been developed for outdoor use only. High concentrations of active substances are required against moisture, moulds, mushrooms and insects.
