#### · 8.2 Exposure controls

· Personal protective equipment:

· General protective and hygienic

Keep away from foodstuffs, beverages and feed. measures:

Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work.

Store protective clothing separately. Avoid contact with the eyes and skin.

· Respiratory protection: In case of brief exposure or low pollution use respiratory filter device. In case of

intensive or longer exposure use self-contained respiratory protective device.

Protective gloves · Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/

the preparation.

Due to missing tests no recommendation to the glove material can be given for the

product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of

diffusion and the degradation

· Material of gloves Butvl rubber. BR

Fluorocarbon rubber (Viton)

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Recommended thickness of the material:  $\geq 0.3 \text{ mm}$ 

· Penetration time of glove material The exact break trough time has to be found out by the manufacturer of the protective

gloves and has to be observed.

For the mixture of chemicals mentioned below the penetration time has to be at least

480 minutes (Permeation according to EN 16523-1:2015: Level 6).

· For the permanent contact gloves made of the following materials are

suitable:

Butyl rubber, BR

Fluorocarbon rubber (Viton)

· As protection from splashes gloves made of the following materials are

suitable: Not suitable are gloves made of Nitrile rubber, NBR

the following materials:

Leather gloves

Strong material gloves

Tightly sealed goggles · Eye protection:
